

Green Key eco label

The Green Key award is the leading standard for excellence in the field of environmental responsibility and sustainable operation within the tourism industry. This prestigious eco-label represents a commitment by businesses that their premises adhere to the strict criteria set by the Foundation for Environmental Education.

The Green Key was created by the Foundation for Environmental Education, known as the FEE (Foundation for Environmental Education), an international non-governmental organization whose mission is to consolidate environmental awareness around the world. The national coordinator of the program for Greece is the Hellenic Society for the Protection of Nature.

In order for a tourist accommodation to be awarded with the Green Key, it needs to meet a certain number of mandatory and optional criteria. These criteria focus on the environmental management of the tourism accommodation and the environmental education of its visitors, staff, suppliers, partners as well as the local community.
